Experience

• Web Development Project
January 2020
The final month of O'Clock's formation is dedicated to a group project in business condition.
We were 5 people in the group and we had 1 month to create a website from scratch. To do so we used Symfony and React.

• Travel Agent / Capital Culturel Européen (France)
April 2017 - April 2019
I organised school trips in the UK for French groups.

• External relations (intern) / Museum of Modern Art (Luxembourg)
April 2016 - September 2016
I assisted the responsible for external relations. My main mission was to increase tourist visits and develop corporate events in the museum.

Education

• Web developer professional accreditation
June 2020
I passed this accreditation called « **Titre Professionnel Développeur Web et Web Mobile** » in French. It demonstrates my ability to create modern web applications (frontend and backend).

• Open Quality Standards certification
March 2020
The **Opquast certification** measures the level of knowledge regarding web quality practices. I passed it with a score of 885/1000.

• Web Developer Training
July 2019 - February 2020
Courses delivered by a French training organisation: O'clock (School labelled "Grande Ecole du Numérique")

• Master's degree: Brand Strategy of Tourist Destinations (IAE Savoie Mont-Blanc)
2014-2016
Includes 1 semester within the London Metropolitan University.
